2. The large number of persons we are requesting be authorized to sign these forms is because there are many times when several people are out of the office at the same time, and we need someone on the access list here at all times.

3. At the same time, it is requested that myself be approved as authorizing officials for requests to remove all other property from government buildings. This authorization requires use of Optional Form 7. If you have any questions, please call me.
